DEMOCRATIC NOMINEE FOR SHERIFF OF
OHIO COUNTY.

S. CALVIN TAYLOR.

The spring weather is making the Legislature feel tired and worn out. It is hard to get a quorum to transact business in the afternoon.

The Committee appointed to investigate private papers of Treasury Tax, began work Monday with closed doors. They will tell nothing until they have finished the work. The people want to know, but are willing to wait a while.

The Second District delegation will be held at Eddyville, May 10th. The program will be one of great interest. The Vice-President of this, the Third District, has declined to call a meeting for Litchfield this spring, giving as a reason, the lack of interest, taken by the teachers and county Superintendents. Those from this District, who desire to attend a meeting this spring, should go to Eddyville.

The days of miracles are not over. Mrs. Stephen Cassidy, of Bowling Green, who had been sick and unable to attend the meeting, had recently made to "arise and walk." She says she heard a voice say to her, "Mrs. Cassidy, arise and walk," and she arose shouting for joy. She attributes her cure to intervention from heaven, when in reality, her will was made strong enough to control the muscles, by the voice she heard, or thought she heard.

Mr. CISNEY from the county of Muhlenberg has introduced a bill in the Legislature to prohibit the playing of base ball, town ball or foot ball in the Commonwealth. Mr. Cisney has at last rendered himself infamous, and will never be remembered forever if he will now introduce a bill, requiring all persons to extend their countenances and look sanguineous all day Sunday. Give Mr. Cisney room, and the angels will soon come to earth. He is truly a prodigy.

It is this issue will be found a reply to Elder H. M. Ford on the Division by the South. The "Bullard article" have been published by the Herald. The HERALD is not a denominational paper, consequently is not the paper through which a religious controversy should be conducted, hence we will be compelled to stop where we are. The HERALD is perfectly willing to make announcements for all religious denominations alike, but it must be excused from conducting a religious discussion while it devotes itself to local matters of interest to the people generally.

RAILROADS AND TAXATION.
The history of railroad building in Kentucky is a subject worthy of earnest consideration. At first vast corporations sought to reach large inland towns by rail in order to be able to do the traffic they needed. Now the railroad goes into the undeveloped country and towns, even cities springing up along the line, and a new industry and a new life is seen among the people. Years ago the railroad company induced towns and counties along their lines to vote, in the shape of "stock in the road" and defrauded the people of the road in return. This is a worthy stock and a transfer of property. Now railroad companies build roads where the people want them, provided the people are willing to give a reasonable aid for the benefits derived from a road in their midst. The day of heavy taxation for the benefit of railroads, has passed, the people are no longer willing to assume burdensome obligations of this kind, and the Legislature recognizing this, has properly introduced a bill prohibiting any county or prevent from voting a railroad tax exceeding four per cent. of its taxable property.

Logan county, years ago, took \$400,000 stock in the L. & N. and issued bonds in payment of same. The county of Logan paid the interest on these bonds for five years, till the dividends of the road paid the interest on the bonds, and a handsome sum to the county, and the county has only had to pay interest during two years since the road first declared a dividend. The same county also voted a \$500,000 stock in the O. & N. and today pays the interest promptly, and is glad she has the road. Another example may be cited. The well-known case of our neighboring county, Muhlenberg. That county voted on herself a bonded debt of \$400,000, paid the interest for awhile then repudiated. Her condition is indeed bad and no one envies her the experience she has had, but every right-thinking man must know that if Muhlenberg,

county had compromised her debt years ago, she would have been in far better condition today than she is. Committees cannot afford to vote a large tax on themselves for the benefit of railroads, but counties can afford to vote a small tax on themselves to aid in the construction of a railroad that will benefit all the farmers in the amount paid out.

Our farmers in this day cannot afford to haul their product forty or fifty miles to market and compete with products of the same kind produced near to market, and if railroads as a medium of transportation is not built through their community, they move into a community where they can enjoy the benefits of cheap and easy transportation, hence it is easy to see what will be the future of that section far removed from transportation. Can Hartford afford to give aid to a railroad? It can. Can Ohio county afford to vote a railroad running through North and South through the county? It certainly would afford to vote a large tax on itself. It is most assuredly not. Wood, not benefit this county far more to increase its facilities for transportation, to invite enterprises into her rich lands, to secure more factories, to increase the value of her lands by the expenditure of a small amount of her revenue, than to throw cold water on all projects for advancement. This is time for practical common sense and the county town or community that does not look out for its own interest is left behind in the onward movement of times.

SHERIFF.
The report of the convention published elsewhere shows how harmonious was the convention that nominated S. Calvin Taylor for Sheriff. The action of Holbrook and Cassidy in withdrawing rather than cause a wrangle for the nomination, because of their respective friends, is certainly to be highly commended, and their worthiness generally only showed their true manhood in this instance. The report of the committee on representation and credentials was adopted as is follows:

The report of the committee on representation and credentials was adopted as is follows:

The committee on representation and the report of the convention were suggested as basis of representation, one to be allowed each predict for every 25 votes or fraction of over 12 votes cast for Gov. Buckner at August election 1887. This will give 12 votes.

Necessary to a choice 38 votes, all predict of the county are represented. Respectfully submitted,

T. J. SMITH, CH'P'R.

The committee on resolutions made the following report which was unanimously adopted:

Resolved By the Democracy of Ohio County in Convention assembled:

First: that we recognize in Grover Cleveland, President of the United States, a man of high moral character, a good patriot, an industrious, energetic, able, honest and patriotic chief magistrate who has reflected credit upon his high office and the mighty reputation of which he is the official head of the nation.

Second: that we recognize in the Democratic National Convention to be held in St. Louis in June, next.

Third: that we endorse the nomination of Gov. Buckner, Kentucky, possesses an executive officer of the rare ability, who, by his energy, vigilance, and fidelity, has faithfully and conscientiously discharged the public trusts confided to him by the people, has won the esteem of every upright and patriotic citizen of our country.

With these facts in view, the people, the people may count on a high principled canvas, and we shall be

misled if such is not the case.

There will be nothing to divide the Democratic party, and every man who believes in firm Democracy can

not only vote for Taylor but work for him. We believe the nomination of S. Calvin Taylor will give general satisfaction to the party and people, and secure for the Democratic party a good majority, and to the people of Ohio county a good Sheriff.

PEASLEY.

James W. Peasley, Treasurer of the State of Kentucky, has been impeached by the proper authority, according to the law and constitution, and deposed from the high office he held so long.泰森

Taised as a man, not as a politician, and it is the duty of the State to bring him to justice. The Legislature has in a measure redeemed it self by the business like conduct of Mr. Casperle in the audience, and the speech of this man, who died away from the contest. The action of this two gentlemen was vigorously applauded, and their gracious acquiescence to each other's wishes made their conduct a matter of great interest.

Mr. Peasley announced his withdrawal from the contest, and as the speech of this man, who died away from the contest.

A popular young merchant in our town assures his customers that the tooth comb is the latest in the way of pocket combs for gentlemen; and the girls are wondering why he does not make them.

Mr. Peasley announced his withdrawal from the contest, and as the speech of this man, who died away from the contest.

Our town was thrown into unusual excitement a few days since by the announcement that there had been \$50 taken out of the desk in Smith & Coffman's law office. The desk was broken into at least four or five times, and the money missing during the evening, and were so well found that they recovered the greater part of their money the next morning. Later it was found that the desk in Smith & Coffman's law office was broken into at least four or five times, and the money missing during the evening, and were so well found that they recovered the greater part of their money the next morning.

A. T. Ticehner was again sent to the sheriff last week.

In Bad Condition.

The teeth which was thrown up on the Hartford road, near North Pantler, last fall, is proving a great annoyance to the farmers who are compelled to haul it. It is however, a very heavy and heavy load to team and horses to get caught. One was stalled this morning in the mud, and as there was not room to put R, twenty-eight other teams were compelled to stop and wait till the first wagon could be moved.

The Iron Horse Wanted in Butler.

When we have the railroad running through our town from Hawesville to Bowling Green, we will not have to depend on this dam jumping business to

get marketed.

Then our lumbermen

will have an incentive to get out more logs and give employment to more of our county men. God speed the day and hour when the sound of the iron horse shall be heard throughout our county.

Railroad Legislation.

The great force that

has resulted in the vast extension of our railroad system, and the steady reduction of transportation charges, should not be denied competition, but we should give it more scope, according to the same time general laws against well-known abuses.

Most of the time which is spent on the roads, which is a waste of time and a waste of money, is the time of the railroads, and as an illustration of this we need only refer to the personal expenses of legislation before the railroads are built.
